

Flood Prevention & Civils Applications

Sand & Grout bags are an ideal solution for flood defence, erosion control and as a temporary ballast. We can supply to local authorities, businesses and to individual households.

SPS sandbags are readily available in hessian or longer lasting polypropylene materials. Each sandbag weights 15kg each and can be supplied individually or in a 50 number per pallet and bulkbags.

Loose material in bulk bags also available.

25 x 50 x 10cm Bags
